ComplianceCenter

HAZMAT REGULATIONS SPECIALISTS

Vision Statement

ICC Compliance Center's vision is to become the recognized North American industry expert and provider of transportation, health & safety compliance products and consulting services. We seek innovative solutions and combine it with our regulatory expertise to provide sustainable growth for the dangerous goods/hazardous materials market. Through accountability and urgency, we aim to be the single-source provider for regulatory compliance needs.

Mission Statement

ICC Compliance Center's mission is to help customers provide quality end products, and maintain a safe and healthy workplace environment. Our commitment to quality and knowledge management enables us to be a single-source provider for dangerous goods/hazardous materials products, and add value by educating industry in a professional manner. By setting a foundation based on ethical behavior, integrity, and standards of excellence, we will achieve our customers' goals together.
