We are is pleased to offer the blazing fast SW247 thermal label printer. This outstanding printer offers both best-in-class speed and high-resolution capabilities along with exceptional durability and reliability. The SW247 delivers ideal performance for product marking, shipping, retail and other labeling applications – all at the best available price.

Smart Design

The easy to load center-biased clamshell design holds a large roll of labels and fits into areas other printers cannot and integrates easily into a wide range of applications. Simply open the cover and drop your labels into the printers. Top of form sensing by gap, black mark, or notch is standard and completely adjustable from side to side.
