

COURSE AGENDA: WHM-20E

This two-day program is aimed at the supervisor or chemical specialist who is responsible for WHMIS implementation in the workplace. It is a detailed introduction to the Hazardous Products Act, the Controlled Products Regulations and the Canadian Occupational Health and Safety Regulations in regards to WHMIS. This training will build your employees' technical abilities and competence. They will be able to advise your current workforce and put their new knowledge to work improving safety in your workplace.

Day 1

- Overview of federal-provincial legislation
- Elements of WHMIS
- Inspectors and training
- Supplier's, employer's and worker's responsibilities
- Controlled products
- WHMIS classes and examples
- Associated dangers to WHMIS classes
- WHMIS label
- Supplier label
- Workplace label

Day 2

- Material Safety Data Sheets (MSDS) requirements
- Supplier's and employer's responsibilities
- MSDS information
- Trade secrets
- System implementation
- Steps to implementation
- Inventory, classification, label, MSDS, etc.
